Inner Restore

Deep Moisturizing Conditioner from Senscience

Senscience Inner Restore Deep Moisturizing Conditioner is an exclusive creamy conditioning treatment that penetrates the hair shaft to replenish natural protein lost due to environmental stress, heat styling or chemical services. This specially formulated nourishing conditioner strengthens the internal structure of the hair while repairing the cuticle.

Inner Restore is recommended for extremely dry, damaged, chemically treated coarse and thick hair and should be applied to towel-dried hair and rinsed out after 15 minutes.

BENEFITS:

- Strong, healthy hair
- Repairs the hair
- Beautiful, shiny, soft and manageable hair
- Helps prevent breakage and split ends
- Super conditioned, hydrated hair
- Luxurious curls

INGREDIENTS

Silicones

Condition the hair deeply, providing shine and softness to dry, damaged hair.

Emollients

Moisturize the hair fiber, allowing hair to absorb the right amount of moisture without build-up.

Glycerine

A humectant that helps retain hair's moisture balance. It helps carry moisture deep into the hair shaft where it is needed most

-continued-

Keratin Amino Acids

Derived from the same material as hair itself. Strengthen the internal structure of the hair, by restoring natural protein in the cortex to repair and nourish.

Silk Amino Acids

Help maintain the moisture balance by penetrating the cuticle. Strengthen the hair.

Bio-Structurer®

A hair restructurizing extract from a specific red seaweed variety (Rhodophyceae) found in Senegal. Smooths the cuticle, restructures the hair fiber and reconstitutes a protective film on the hair. Improves flexibility, elasticity and structure to dry, damaged hair.

Emollients

Add moisture and conditioning to dry, split ends.

Tip:

- Use **Inner Restore** on curly hair that is dry, dull and tired to energize and revitalize curls.
- Use only a small amount on fine hair that is damaged and reduce the processing time to a maximum of 5 minutes.

Senscience products are available exclusively through professional outlets. For more information consumers may call 1-800-626-3684 or log on to www.senscience.com.
