Smooth as Silk Senscience Silk Moisture Shampoo and Conditioner

Senscience International and **Shiseido Laboratories** introduce **Senscience Silk Moisture Shampoo and Conditioner**, a cleansing and conditioning duo that provides ultimate hydration and reinforces every strand of hair. **Senscience Silk Moisture Shampoo and Conditioner** is recommended for dry, damaged, brittle, coarse, overstressed and hard to manage hair.

Senscience Silk Moisture Shampoo provides a luxurious, thick lather that gently cleanses while replenishing lost proteins normally found in the hair. It hydrates hair that is overstressed by thermal styling, chemical processing and environmental factors and brings dry, damaged hair back to life.

Senscience Silk Moisture Conditioner was developed to intensify the benefits of the conditioning agents. It balances the penetration of conditioning agents specially needed for the uneven porosity of dry and damaged hair. It strengthens hair by infusing **Vitalock-6 Complex** deep into its inner fiber, reinforcing each strand. Leaves hair fully conditioned with a beautiful and silky feel.

BENEFITS:

- Manageable, supple hair
- Safe for use in colour-treated hair
- Protects the hair from environmental stresses
- Super hydrated & conditioned hair
- Maintains body & volume
- Easy to style and to detangle
- Increases elasticity of hair

-continued-

Ingredients:

Mild Surfactants	<i>Gently cleanse the hair without removing essential oils.</i>
Hydrolyzed Silk Proteins	<i>Penetrate deep into the hair, replenishing lost proteins, strengthening the hair and improving manageability and body.</i>
Sweet Almond Extract	<i>Protects and penetrates deep into the hair, replenishing moisture and softening the hair. Helps to maintain vibrant colour, while protecting from the environment.</i>
Guar gum	<i>A cationic conditioner that softens, leaving hair silky.</i>
Carbohydrate chains	<i>Form a network with peptides that spreads over and protects the hair's surface.</i>
Conditioning ingredients	<i>Replenish and restore moisture to dry, damaged, lifeless hair, while maintaining body.</i>
Glycerine	<i>A humectant that carries moisture deep into the hair where it is needed most. Improves the suppleness and texture of dry, coarse hair.</i>
Silicones	<i>Designed to provide shine, smoothness and overall conditioning.</i>
